

TECHNICAL DATA

PRODUCT NAME: *STRUCTURE-GUARD*

PRODUCT DESCRIPTION: **STRUCTURE-GUARD**, an environmentally friendly product is applied to the skeletal structure of both commercial and residential structures during the framing stage. Once the product has dried, the structure will be protected from mold and mildew for many years to come. It contains a special blend of preservatives to control penetration of organic mold or mildew growth on the coated surface. When applied to properly prepared wood, metal or masonry surfaces, **STRUCTURE-GUARD** will block mold and mildew stains on the coated surface. **STRUCTURE-GUARD** contains a yellow dye to make application easier.

BENEFITS:

- Special blend of EPA registered preservatives to provide long-term protection against mold and mildew.
- Has excellent water resistance.
- Can be used over a variety of construction material surfaces such as bare wood, painted surfaces, wallboard, masonry, brick, tile, grout and metal.
- Apply directly over existing mold or mildew.
- Environmentally friendly, non-hazardous to apply and use
- Can be used for industrial, commercial, residential, hospital and school applications

SURFACE PREPARATION: Clean and dry surface thoroughly. Mask windows when planning to spray. This product may be applied directly over light to moderate mold or mildew-contaminated surfaces.

APPLICATION: Mix well before using. Brush, roll or airless spray. **DO NOT TOP COAT WITH AN OIL BASED PAINT OR STAIN.** Do not apply when temperature is below 50 degrees F.

SPREAD RATE: 1500-2500 sq. ft. / gallon. The spread rate is based on the use of 0.023" Graco spray tip and will vary depending on your spray equipment.

THINNING & CLEAN UP: Do not dilute this product. Clean up with warm soapy water.

STORAGE & DISPOSAL: Keep container sealed when not in use. Do not contaminate drinking water, food, or feed by disposal or storage. Do not over spray into natural waterways. Dispose of cleanup water as conventional waste according to federal, state and local regulations.

ENVIRONMENTAL HAZARDS: This product is toxic to fish! Do not apply directly to water by cleanup of equipment or disposal of waste. **STRUCTURE-GUARD** does not contain any known carcinogens or mutagenic compounds. The active components pose no known permanent environmental hazards. **STRUCTURE-GUARD** primer is voc (volatile organic compound) compliant with all known existing statues.

WARRANTY: If not satisfied with this product when used according to label directions, additional product or refund of purchase price is the sole and exclusive remedy. Seller shall not be liable for cost of labor, direct and incidental damages resulting from the use of this product.

TECHNICAL SPECIFICATIONS:

Color: yellow
Solids by volume: 33.18%
Weight / gallon: 8.45 lbs. / gal.
Viscosity: 45-50k.u.
Dry time: one hour to touch
